

Annual Report

**Celebrating Three
Decades of Our Work to
End Homelessness**

2022

30 | housing FORWARD

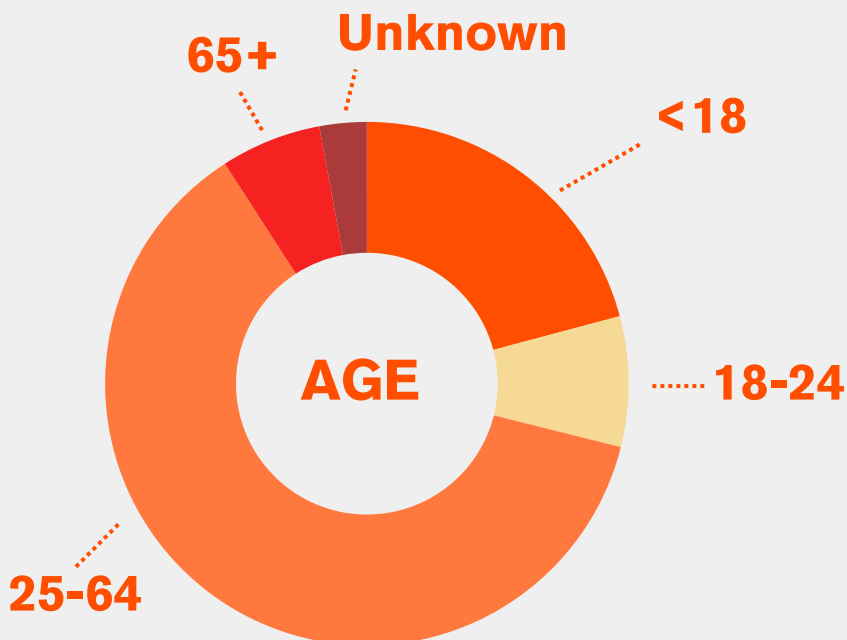

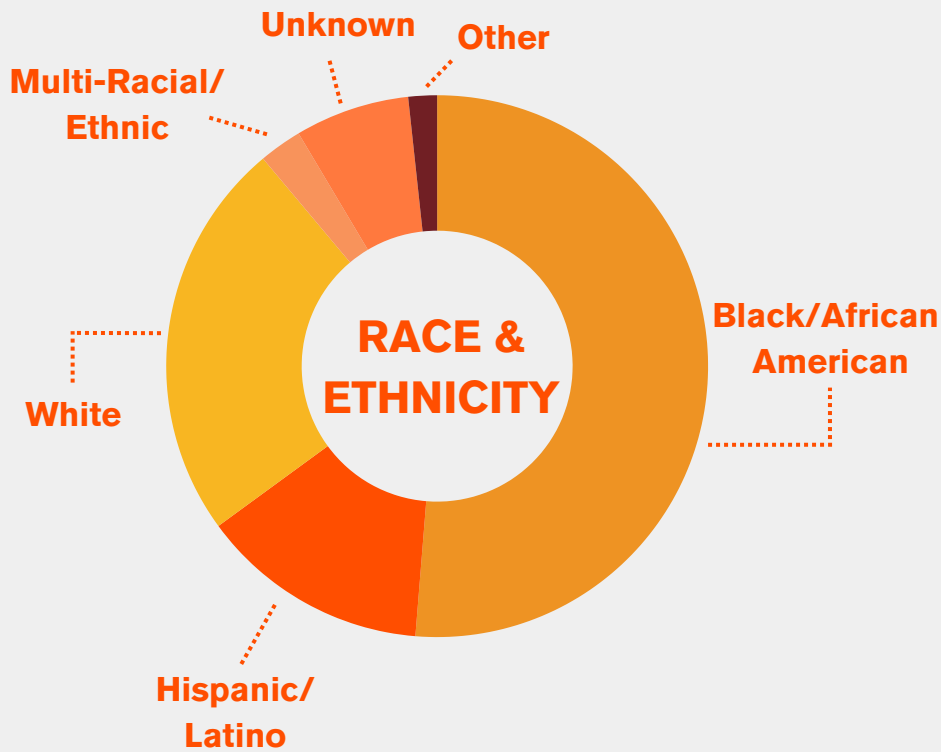

years of ending homelessness

As we mark our 30th anniversary of transitioning people for housing crisis to housing stability, we know that our work is far from done. There is a continued and growing need for our services that prevent homelessness whenever possible, respond to the crisis of homelessness and create stability through housing. Our commitment to ending homelessness is as strong today as it was in 1992, and we are honored to continue the legacy of our visionary founding volunteers. The foundation of compassionate response that they laid has been our guidepost for the past 30 years. Through their unwavering resolve, these forerunners transformed how the community responds to homelessness and housing crisis. It has been said that “the greatness of a community is most accurately measured by the compassionate actions of its members.” These words perfectly describe those who gave freely of their time, talents, and most importantly, their hearts to build a better world for neighbors experiencing homelessness.

Our Clients

We believe housing is a basic human right and that individuals cannot achieve stability until they are housed first. We are dedicated to making homelessness rare, brief, and nonrecurring for residents of this community
